Mr. Ed Chaney
Conservation News
1412 Sixteenth Street N.W.
Washington, D. C. 20036

Dear Mr. Chaney:

Thank you for placing me on your mailing list.

After reading several issues of Conservation News with interest, I am submitting two press releases which I feel conform to your editorial format.

One, updated, concerns our unique Animal Airlift in the interest of wildlife conservation. This type of program is, I believe, the only one of its kind in the nation. We are hoping other cities will emulate our conservation efforts.

The other release concerns the need of Los Angeles for a Federal Quarantine Facility and Animal Care Center. The release defines the urgency of our need.

Thank you for considering the enclosed articles.

Very truly yours,

James McNamara
