Compound. L.A.P.D. used

A North Hollywood policeman
returning To his apartment found his
furnishings in general disarray.
His 2 dogs Barking furiously - thought
his home Ransacked by Burglars. The
intruder not a burglar. The intruder found
in a bedroom - 14 pound female gibbon
monkey. Returned to owner Several
blocks away.

1. Explain the St. Francis of Assisi Award to be presented by the Mayor in April.
2. With most of the nation gripped in a deep freeze, it's almost embarrassing life at the beaches here in Southern California. However, that's the way the temperature bounces (ha, ha). With the beaches already drawing visitors, and the peak season ahead, what are the regulations governing dogs at the ocean fronts?
3. The first public anti-rabies clinics of 1977 are being conducted in the city. How many clinics remain on the February schedule?
4. Los Angeles City animal shelters are offering free spaying and neutering for pets adopted from the city shelters. This program should interest many of our listeners who are planning to adopt a pet.
5. We have discussed in past programs the role of the household pet--the dog and the cat--in our society. What about wild animals? Does the city have a wildlife conservation program?
