Dear Mr. Buffum:

Your recent column on our Animal Airlift was a graphic literary treat.

All of us in the Department, who are so closely associated with wildlife (as well as domestic) conservation, are most appreciative.

Your column was highly instrumental in carrying our message of conservation to the public, whose support is so necessary.

I wish to thank you for taking the time to explore our subject so thoroughly before presenting our project to your readers.

I thoroughly enjoyed our conversation, and hope we can work on another project in the near future.

Very truly yours,

Robert I. Rush
